Shuffle King

Electronic card shuffler

SHUFFLE KING 2 MAX

The Shuffle King 2 MAX is a professional single-deck shuffler designed to meet the highest standards of your live game. Improved mechanics of the proven device dispose of an optional scanner that allows card recognition and sorting feature, so the device enables sparing even more time of your staff, increases effectivity and safety of your business operation.

COMFORT AND SAFETY

System of two card decks allows you to use one deck in play while the other deck is simultaneously shuffled to be ready for the next deal. The shuffle is controlled by a GLI approved random number generator. Game deceleration caused by hand shuffling is eliminated, thereby your rake is significantly increased. Dealer has more time to pay attention to the game. Cards are always shuffled properly. The Shuffle King 2 MAX provides much better gaming comfort, safety and the fastest operation within our product range.

Shuffle King

Electronic card shuffler

TECHNICAL SPECIFICATION

The shuffler operates with a preset deck size to shuffle, adjustable in the range from 2 to 54 cards. The device accepts 100% plastic cards (recommended), semi-plastic and paper cards. The maximum card size is 88 x 63 mm. It is also possible to use narrow cards with dimensions of 88 x 57 mm. Excessive cards in the deck will stay unshuffled in the insertion compartment. Card width can be easily adjusted in the user menu. Each card is counted; the total number is shown on display. The Shuffle King 2 MAX supports an optional Card Recognition feature which allows the shuffler to detect wrong or specific missing cards. Together with card recognition, the shuffler also supports a Sorting feature.
